

Whom It Concerns:

I've been a Wakulla resident since 2002. I've seen TCC come and promise educational programs and take our tax dollars. Their building sits to this day 80% empty.

The classes they promised environmental degrees that have not panned out. They offered a beginner excel class that I personally signed up for that was taught by a newly certified teacher and the property tax office ended up teaching her.

Crawfordville desperately needs a recreation center pool **NOT** WEI/TCC for drones. This is a complete waste of money because TCC/WEI has failed to keep its promises thus far. The youth and seniors need a pool to swim laps and provide a place for sports and family fun.

Thank you for your time and assistance.

Kind Regards,

Audrey Warnick DC CCSP
